

Don't Move Firewood! To protect our woods and your vacation spot, Mi-Te-Jo has taken a strict stand on the moving of fire wood. Absolutely no firewood of any type, from any where, can be brought into Mi-Te-Jo by the campers. Mi-Te-Jo defines fire wood as any type of wood that you will burn in a campfire or wood stove. This has been a decision that was made after many discussions with state and federal forestry experts, bug experts, campers, and campgrounds. Your cooperation in this matter is greatly appreciated. We apologize for any inconvenience and any further questions may be directed to the office staff.

Important facts

- ONE: If the bugs invade our forest, they will cause extensive damage!
- TWO: It has been proven that the most common way for the bugs to travel is by firewood.

Our policy is very strict because it is not feasible to verify the source of every piece of wood that may be acceptable. Below are a list of FAQ and their answers

| 8. Can we bring wood from construction? | NO |

What happens if a camper brings it any way?

At the gate there will be a sign asking if you brought firewood of any type to tell the office. The firewood will be taken, bagged and stored until check out. If wood is “snuck” into the campground and we are told (you know we will be), you will be asked to leave without a refund.

Where is Mi-Te-Jo getting the wood that they are selling?

MTJ is getting most of the wood from our property. Additional wood was purchased from a local, verified source. MTJ has been working hard to keep the prices reasonable. We will carry our hard wood in bundles as we have been in the past. Since the white wood bags are from out of state, we will not be carrying them. Our truck rack has been replaced by “bag o’ wood”. This is the same amount and same cost as the truck delivery, but will be delivered on a pallet in a bag, will carry a \$10 refundable deposit for pallet & bag.

Thank you for your cooperation! Gary & Susan
