Pow-Wow
- October 15:** Season Closes

## 2014 Camping Season Just Around the Corner!

Mother Nature couldn't seem to make up her mind this year. One day she's teasing us with 60 degree weather the next it's another six inches of snow.

Who's ready for summertime? We sure are. Toasting marshmallows over the fire, swimming and boating in the lake, maybe a round of disk golf? Sounds good!

The ice on the lake will soon be melted, the warm weather is here to stay and camping season is right around the corner!

The staff at Mi-Te-Jo is hard at work getting things ready for the 2014 season. Hard to believe we are going on 22 years! We couldn't have made it this far without your continual support. Thank you campers!

---

## Milfoil

As many of you have heard, milfoil is an invasive aquatic weed that is having a serious negative impact on surrounding bodies of water. Luckily, Milton Three Ponds has remained clean.

MTJ just wants to remind you to thoroughly inspect your boat before putting it in the water. The lake, the fish, the swimmers, and the boaters thank you. For more info go to <http://www.threeponds.org>

## Wi-Fi Updates

Who remembers the phone jack outside of the office? One plug for the entire campground, how far we have come!

As many of you know we spent a lot of time last summer making improvements to our Wi-Fi system. We appreciate any feedback and will continue working on it. The problem seems to be the better we

make it the more campers are on it. This makes for a never ending battle to meet the expectations, especially with people bringing their tablets, phones, and laptops camping.

A reminder from Gary that the Wi-Fi is not intended for streaming and doing so will make it difficult to support all the Facebook-ing and gaming. Skip the movie; go for a walk in the woods!

## Seasonal Tax on Campers

For several years the campground association has been working to exempt RVs from real estate taxation. This has been a slow process but we are moving in the right direction.

Mi-Te-Jo is extremely fortunate that the town of Milton has not imposed these taxes as many

neighboring towns have started to.

The association received a supportive vote from the NH Senators on SB333. This bill is now being presented to the House of Representatives.

We will post the progress of the bill on Facebook as it is presented to the House of Representatives.

## Disk Golf

We appreciate the feedback we received from those of you who got a chance to get out and play a round on the new disk golf course last year. Gary plans to open up the first 9 holes

to make it a bit easier for the novice. He also plans to add benches, signs, and trashcans along the trail. We are still looking for a solution to those pesky deerflies. Any suggestions?

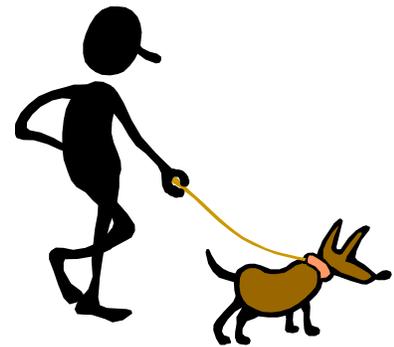

## A New Place for Your Furry Friends!

At Mi-Te-Jo we understand that for many campers your pets are part of the family too and it is just as much their vacation as it is yours. Well after many years of brainstorming, this summer we will be opening up a special park just for the pups.

It is very important that

your dogs using the park are campground, people, and other dog friendly. Rules will be posted outside of the park and must be followed.

We hope that this addition will help make Mi-Te-Jo your dog's favorite campground too!

## What's New in the Event Area?

The Meadow at MTJ has really expanded over the past few years and has turned into a unique and fun place to host events of all kinds. From birthday parties to family reunions, tractor pulls to corporate outings, and yes, we even hosted four weddings last year.

This summer we plan to lose the port-a-potties and are currently building a new bathhouse for the area.

Currently there are 20 water & electric hookups. We are planning to add a dump station on the access road to service this area.

*It was great seeing so many familiar faces at the NH Camping & RV Show! Thanks to all who stopped by and said hi!*

## Wood Bugs

We know you've heard it a million times...but the emerald ash borer and the Asian longhorn beetle are still a serious threat to our woods! Just recently these troublesome little bugs were detected in the Concord area of NH. Mi-Te-Jo is confident

we made the right decision in not allowing wood to be brought into the campground. We may not be able to save all of New Hampshire but we will do our best to keep the trees of MTJ safe and healthy! Thank you for understanding and keeping all firewood at home.

Asian Longhorn Beetle

## Mi-Te-Jo's 3<sup>rd</sup> Annual Harvest Weekend

Mi-Te-Jo has begun hosting a Harvest Weekend every fall. The weekend includes pumpkin carving and an apple crisp social. It's also a great time to go apple picking at McKenzie's farm. Last year we had over 35 pumpkins on display. We are thinking about adding a pumpkin flavored dessert to this year's festivities. What's your favorite pumpkin treat? Join us September 27 & 28 for a weekend of fall fun!
